

OUTLET BOX FOR CONCRETE WALLS

ABSTRACT OF THE DISCLOSURE

[0035] An electrical outlet box having a generally rectangular box having a back wall, a perimetrical side wall surrounding the back wall defining an open front face and a box interior, the side wall comprised of a first and second set of generally parallel spaced apart wall portions, outwardly directed flanges extending from one set of parallel wall portions adjacent the open front face; and fastening structures integrally formed with and attached to the flanges for rigidly mounting the electrical outlet box to a structural member.
